/Single

I am always trying to improve myself. I have some minor problems like distraction in general and being busy with multiple jobs at the same time, but I am fine with teamwork and human relationships. I like to be different, and ideas outside of the usual habit always attract my attention. I like to take risks and trust myself to make cool decisions in risky situations.

Courses

Frontend Development Course,

Mustafa Akgül Özgür Yazılım Kampı

07/2019 | Turkey

Introduction To Frontend Development Course,
